TITLE	North Carolina Community College System Fall Statistical Report, 1999-00.
INSTITUTION	North Carolina Community Coll. System, Raleigh.
PUB DATE	2000-00-00
NOTE	13p.; The report is Volume 35, Number 3. Prepared by North Carolina Community College System, Information Services Section.
PUB TYPE	Numerical/Quantitative Data (110) -- Reports - Descriptive (141)
EDRS PRICE	MF01/PC01 Plus Postage.
DESCRIPTORS	*Academic Records; Associate Degrees; College Programs; *Community Colleges; *Enrollment; Full Time Students; *Institutional Characteristics; Part Time Students; *Student Characteristics; Tables (Data); Two Year Colleges
IDENTIFIERS	*North Carolina Community College System

ABSTRACT

This document contains two tables of information compiled from Fall 1999-00 registration records submitted by each North Carolina community college. The first table summarizes the number of persons enrolled in each program in each college. Curriculum programs are categorized as Associate, Diploma, Certificate, or Transition. Extension programs include basic skills, community service, and JTPA, among others. The second table uses the same categories, but summarizes the annualized full-time equivalent (FTE) enrollment in each program in each college. An annualized FTE is representative of the amount of time a "typical" full-time student attends class during a given report year. Several part-time students would only constitute one FTE. The full-time equivalent was developed to standardize reporting and is used as the basis for the allocation of State funds to the colleges. FTE for each semester is calculated by dividing the number of student hours in membership for that 16-week semester by 512. A curriculum annualized FTE is defined as student enrollment in 16 hours of class, shop, or laboratory instruction per week for 16-weeks for two semesters. The extension annualized FTE for each term is calculated by dividing the number of student hours in membership for that term by 688. (PGS)

STATISTICAL REPORT
NORTH CAROLINA COMMUNITY COLLEGE SYSTEM
FALL 1999-00

This report contains a compilation of information taken from registration records submitted by each college and class reports on each class offered by each college.

Data in the first table were taken from student registration records reported on the NCCCS 7-1 report. From this table, one can determine the number of persons enrolled in each program in each college. The total number of extension students shown for each college is an unduplicated count and may be less than the sum of the extension program areas. The total column is an unduplicated count of the curriculum and extension students at the college and may be less than the sum of the total number of curriculum students and the total number of extension students.

Information in the second table, compiled from Institution's Class Reports (ICR), is annualized full-time equivalent (FTE) data. A large number of students in the community college system attend on a part-time basis; therefore, budgeting cannot be made on the basis of the number of individuals enrolled. The full-time equivalent, FTE, is the means that was developed to standardize reporting and is used as the basis for the allocation of State funds to the colleges. An annualized FTE is representative of the amount of time a "typical" full-time student attends class during a given report year. Several part-time students would constitute only one FTE.

A curriculum annualized FTE is defined as student enrollment in sixteen hours of class, shop, or laboratory instruction per week for sixteen-weeks for two

semesters. FTE for each semester is calculated by dividing the number of student hours in membership (this includes membership and contact hour classes) for that sixteen-week semester by 512. The report year for curriculum FTE is Fall and Spring semesters.

An extension annualized FTE is defined as student enrollment in 16 hours of class, shop, or laboratory instruction per week for the number of weeks in each term of the report year. The three terms in a report year are Spring, Summer, and Fall. Summer is a eleven-week term and Spring and Fall are sixteen-week terms. The FTE for each term is calculated by dividing the number of student hours in membership for that term by 688.
